

### **Cairns Twilight Cruises increases nights of operation**

Cairns Habitat Cruises has announced an additional night to its newest product "Cairns Twilight Cruises"

Cairns Twilights Cruises offers a calm water cruise on Trinity Inlet and is a perfect option as a pre dinner drinks venue with a difference.

General Manager of Cairns Habitat Cruises Kim Thomas said " Cairns Twilight Cruises was initially a product that was aimed at the local market. But such as been the popularity of the product from visitors to Cairns, that we have taken the product from operating one night to three nights in just over 8 months.

Cairns Twilight Cruise departs from the Reef Fleet Terminal in Cairns at 5:30pm every Tuesday, Friday and Saturday. For 1 ½ hours passengers can relax with an included glass of champagne and take in the stunning sunsets and lights of Cairns. Upon arriving back into Cairns, the centrally located Reef Fleet Terminal is within easy walking distance of a range of superb Cairns restaurants.

At just \$16pp the product is proving immensely popular with group operators, looking to welcome or farewell their groups from Cairns in a very unique way.
